X-REST ALU
ALUMINIUM HEADSET STAND

Minimalistic Design

The X-Rest ALU helps avoid desktop clutter and, with its inconspicuous design, keeps the headset in the limelight. It will complement any kind of setup while hardly taking up any additional space. With its straight contours, the headset stand has an especially space-saving yet also stable design.

Secure and Stable

The silicone feet of the X-Rest ALU provide stability on all even surfaces. The headset rests on the top of the stand while its silicone pad and raised inclined ends guarantee a secure hold for the headsets or headphones.
